

I'M NOT A BARISTA

Your Story Matters

Baristas are often undervalued

No matter what coffee movement we're in, baristas are always that last artisan and QC inspector to ensure the best taste of the coffee.

Coffee connects us all

You're aware of the coffee crisis caused by climate change and farmer's low income, you also know that we can't solve this problem alone. We should collaborate with millions of coffee lovers, so share your knowledge and positive energy for the love of coffee.

Sharing is Caring

Millions of people drink coffee every day, but how many of us really know about coffee? Uncle Sam loves coffee with cream and sugar, and he never read Barista Magazine, but he definitely likes to read your story and share it with pride. You don't have to be a champion to make an impact, be you, share your story, and let it spread with love within your network.
